Journal of Medical and Veterinary Mycology

Contents of Volume 27, 1989

Chief Editor

E. G. V. Evans, *Department of Microbiology, University of Leeds, U.K.*

Associate Editors

D. Kerridge, *U.K.*
K. J. Kwon-Chung, *U.S.A.*
A. Stenderup, *Denmark*

Editorial Board

A. Cassone, *Italy*
G. T. Cole, *U.S.A.*
C. De Vroey, *Belgium*
Y. Fukazawa, *Japan*
R. J. Hay, *U.K.*
H. Koch, *Federal Republic of Germany*
M. R. McGinnis, *U.S.A.*
E. S. Mahgoub, *Sudan*
Y. Nozawa, *Japan*
F. C. Odds, *Belgium*
A. Polak, *Switzerland*
D. Poulain, *France*
H. S. Randhawa, *India*
A. Restrepo, *Colombia*
J. M. B. Smith, *New Zealand*
D. A. Stevens, *U.S.A.*

Editorial correspondence and manuscripts for submission should be addressed to Dr E. G. V. Evans, Regional Mycology Laboratory, Department of Microbiology, University of Leeds, Leeds LS2 9JT, U.K. Directions to contributors can be found at the back of each issue of the journal.

Business correspondence, including orders and remittances relating to subscriptions, back numbers, advertisements and offprints, should be addressed to the publishers: Carfax Publishing Company, P.O. Box 25, Abingdon, Oxfordshire OX14 3UE, U.K.

The journal is published six times a year. These six issues constitute one volume. An annual index and title-page is printed in the final issue of each volume. ISSN 0268–1218.

Journal of Medical and Veterinary Mycology

Volume 27, Subject Index

Adherence of *Candida* species to gastrointestinal mucosa—effect of irradiation on, 345
surface modified glass, 269
Adiaspiromycosis—treatment with ketoconazole, 265
AIDS—*R. atrovirens* infection in, 127
Allergic response—in recurrent Candida vaginitis, 57
Allergic zygomycosis—in farmed deer, 329
Alpaca—aspergillosis in, 193
Alveolar macrophages—phagocytosis of *C. neoformans* by, 203
killing of *C. neoformans* by, 219
Animal model for gastrointestinal candidosis, 363
invasive aspergillosis, 5
systemic candidosis, 51, 363
Antigenic comparison of *P. marneffei* and *P. primulinum,* 105
Antigenic polypeptides of *P. brasiliensis,* 407
Antigens of agents of black grain eumycetoma, 303
Apophysomyces elegans—exoantigens of, 113
rapid identification of, 113
Arthroderma vanbreuseghemii—ascospore ultrastructure of, 187
Ascospores—ultrastructure of in *A. vanbreuseghemii,* 187
Aspergillus fumigatus—effect of saperconazole on development of, 381
in vivo production of gliotoxin by, 45
spores, killing of by heat labile serum components, 295
human lung macrophages, 295
Azole sensitivity—in *S. cerevisiae,* 397

Beige mice—systemic candidosis in, 45
Black grain eumycetoma—antigens of agents of, 303
Blastogenic response—correlation with interleukin 1 production in zoopathogenic mycoses, 159
Bovine mycoses—histopathological diagnosis of, 33
Burn wound infection by *S. vasiformis,* 427

Candida albicans—adherence to murine gastrointestinal mucosa, 345
mutant of sterol 14 demethylation, 121
relationship with *C. stellatoidea,* 229
strain differentiation, by DNA restriction fragment length polymorphism analysis, 431
Candida species—adherence to surface modified glass, 269
growth at 45° C, 197
role in oral epithelial neoplasia, 277
Candida stellatoidea—relationship with *C. albicans,* 229
Cellular immune response to *P. brasiliensis* antigens in mice, 93
Chromoblastomycosis—genetic susceptibility to, 181
HLA-A29 carriage and susceptibility to, 181
Cladosporium trichoides—taxonomic clarification of, 413
CNS infection with *R. atrovirens,* 127
Coal miners—*H. toruloidea* in, 169
S. hyalinum in, 169
Cryptococcosis—treatment with garlic, 253
Cryptococcus neoformans, killing by rat alveolar macrophages, 203
phagocytosis by rat alveolar macrophages, 203

Deer, invasive aspergillosis in, 329
zygomycosis in, 329
Dermatophytes—as agents of tinea capitis, 27
DNA restriction fragment length polymorphism, for differentiation of *C. albicans* strains, 431
Dysgonic strains of *M. canis,* 391

Eumycetoma—antigens of agents of, 303
Exoantigens of *A. elegans,* 113
S. vasiformis, 113
Exophiala spinifera infection in a cat, 257
Experimental infections—cryptococcosis, treatment with garlic, 253
murine paracoccidioidomycosis, 243
with *T. equinum,* hypersensitivity to trichophytin during, 353

Feline phaeohyphomycosis, 257
Fluconazole—in therapy of rat palatal candidosis, 63
Foot infections with *H. toruloidea,* 169
S. hyalinum, 169
Fungal pathogenesis—role of mammalian hormones in, 133
Fusarium solani—infection in baby sharks, 83

Garlic—for treatment of experimental cryptococcosis, 253
Gastrointestinal candidosis—in immunocompromised mice, 363
Genetic analysis of azole sensitivity in *S. cerevisiae,* 397
Genetic susceptibility—to chromoblastomycosis, 181
Gliotoxin, isolation from bovine udder, 45

Heat labile serum components—effect on killing of *A. fumigatus* spores, 295
Hendersonula toruloidea—foot infection by, 169
Histopathological diagnosis, of mycoses in cattle, 33
HLA-A29 carriage and susceptibility to chromoblastomycosis, 181
Homogeneity of *C. albicans* strains, 229
Human lung macrophages—killing of *A. fumigatus* spores by, 295
Hypersensitivity to trichophytin, in experimental *T. equinum* infection, 353

IgE antibodies—in recurrent candida vaginitis, 57
suppression of, in experimental paracoccidioidomycosis, 243
Immunoblotting—for identification of antigenic polypeptides of *P. brasiliensis,* 407
Immunofluorescence—for identification of *Aspergillus* species, 33
zygomycetes, 33
Immunohistochemistry for—diagnosis of mycoses in cattle, 33
localization of T lymphocyte subsets in paracoccidioidomycosis, 149
Interleukin 1 production—correlation with blastogenic response in zoopathogenic mycoses, 159
Invasive aspergillosis—animal model for, 5
in an alpaca, 193
in farmed deer, 329
Irradiation—effect on *in vitro* adherence of *C. albicans,* 345

Ketoconazole therapy for, adiaspiromycosis, 265
rat palatal candidosis, 63
Killing of *C. neoformans,* by rat alveolar macrophages, 219

Mammalian hormones—binding to fungal receptors by, 133
functional effects on pathogenic fungi, 133
Mastitis—production of gliotoxin in, 45
Melanin deficient mutants of *W. dermatitidis,* 335
Microsporum canis—dysgonic strains of, 391
Microsporum praecox, and tinea capitis, 313
Morphological variant—of *P. brasiliensis,* virulence of, 141
Morphology of *A. fumigatus*—effect of saperconazole on, 381
Murine—gastrointestinal candidosis, *C. albicans* adherence to gastrointestinal mucosa in, 345
P. brasiliensis hypersensitivity pneumonitis, 93
paracoccidioidomycosis, 71, 243
systemic candidosis, *W. dermatitidis* infection, 335
Mycotoxin production—in infected tissues, 45

Oral candidosis, therapy with fluconazole and ketoconazole, 63
Oral epithelial neoplasia—role of *Candida* species in, 277

Paracoccidioides brasiliensis—antigenic polypeptides of, 407
hypersensitivity pneumonitis in mice, 93
immunogenicity of, 71
pathogenicity of, 71
virulence of a morphological variant of, 141
Paracoccidioidomycosis—experimental murine, 243
IgE antibodies in, 243
localization of T. lymphocyte subsets in, 149
Penicillium marneffei—antigenic relationship with *P. primulinum,* 105
Penicillium primulinum—antigenic relationship with *P. marneffei,* 105
Phaeohyphomycosis, feline, 257
Phagocytosis of *C. neoformans,* by rat alveolar macrophages, 203
Physiological analysis of azole sensitivity, in *S. cerevisiae,* 397
Piritetrate, effect on sterol biosynthesis, 5
mode of action of, 5
Proteolytic enzymes of—*T. gallinae,* 319
T. verrucosum, 319
Pulmonary mycoses—in farmed deer, 329

Rabbits—invasive aspergillosis in, 5
Rapid identification of—*A. elegans,* 113
S. vasiformis, 113
Rats, treatment of oral candidosis in, 63
Recurrent candidosis, IgE antibodies to *C. albicans* in, 57
vaginal eosinophils in, 57
Respiration defect—in *C. albicans* mutant, 121
Restriction fragment length polymorphism analysis of DNA, for strain differentiation of *C. albicans,* 433
Rhinocladiella atrovirens infection, and AIDS, 127

Saccharomyces cerevisiae—azole sensitivity in, 397
Saksenaea vasiformis—burn wound infection by, 427
exoantigens of, 113
isolation of, 427
rapid identification of, 113
Saperconazole, effect on *A. fumigatus,* 381
Scytalidium hyalinum, foot infections with, 169
Sharks, fusariosis of, 83
Sickle cell anaemia—*M. praecox* infection in, 313
tinea capitis in, 313
Spain, dysgonic strains of *M. canis* in, 391
Sri Lanka—incidence of tinea capitis in, 27
Sterol biosynthesis—effect of piritetrate on, 5
Sterol demethylation—*C. albicans* mutant and, 121
Systemic candidosis in beige mice, 45
immunocompromised mice, 363

Taxonomic clarification—of *C. trichoides,* 413
Tinea capitis—causative agents of, in Sri Lanka, 27
M. praecox in, 313
sickle cell anaemia and, 313
T lymphocyte subsets—localization of in paracoccidioidomycosis, 149
Trichophytin—hypersensitivity to during experimental *T. equinum* infection, 353
Trichophyton equinum, experimental infection with, 353
Trichophyton gallinae—proteolytic enzymes of, 319
Trichophyton verrucosum—proteolytic enzymes of, 319
Ultrastructure—of *A. vanbreuseghemii* ascospores, 187

Vaginal eosinophils—in recurrent vaginitis, 57
Virulence—of a morphological variant of *P. brasiliensis,* 141

Wangiella dermatitidis—experimental murine infection, 335
melanin deficient mutants of, 335
Zoopathogenic mycoses—blastogenic responses of mononuclear cells in, 159
interleukin 1 production in, 159
Zygomycosis—in farmed deer, 329
